

TAKE A STAND

Speak Up! Be Active! Be Open Minded! Tolerate & Respect ! Show Solidarity!

It's time to take a stand for Europe, and indeed for the whole world. To create a movement encouraging social cohesion in our society, promoting awareness and tolerance for all cultures, genders, races, religions, sexual orientations, colours and origins. To motivate people to participate in politics and social activities, speaking up for peaceful dialogue, humanism, tolerance and mutual understanding, to make the world a better place for every single individual and for all of us."

Who needs to TAKE A STAND?

Everybody in favour of the European ideal and its values, all who believe in peace, inclusion and dialogue as opposed to fear and exclusion.

Who are we?

We are the creators and distributors of European music and culture, providing music, creativity, art and design to millions of young people every year. Our activities are aimed at bringing people together, and our intentions are to relate fully to our audiences, peacefully and joyfully creating and developing a community through sharing our passion for music and culture.

We are ambassadors for the European idea and its values. We provide examples of how it is possible to bring different people from various countries together, regardless of gender, race, religion, sexual orientation or origin.

We are aware of the relevance of social responsibility - our aim is to be fair in all that we do. We absolutely intend that our operations should be ecologically, socially and economically sustainable. We promote our ideals for a peaceful cultural community, designed and dedicated to inspire the future generation of European citizens.

Who we do this for?

For future generations,
For the future of Europe,
For a strong European community – in favour of European society and citizenship.

LET'S TAKE A STAND!

Take A Stand is a joint initiative by Yourope, the association of European music festivals and its partners. Take A Stand events take place at various music festivals and live music events, addressing music fans on and offline. Take A Stand is a campaign with a mission to keep our society intelligent and human.
